

**Position:** Web Developer

**Job Description:**

We are looking for an experienced and passionate .NET Web Developer to join our application development team. Our growing software development company needs talented people to build innovative data driven web applications using the latest technologies and methodologies.

**Requirements**

The ideal candidate would be a C#/.NET developer with experience building production, commercial-quality web based applications. Applicants must be comfortable with SQL syntax and SQL Server or Oracle. The candidate needs to be flexible and open to new ideas or change with the passion and drive to excel in their career. The applicant must be self-directed, organized, and extremely attentive to details.

Additionally, this position requires:

- Qualified applicants should possess a BS in computer science and/or equivalent job experience.
- 2+ years of web application development experience.
- Practical experience with .NET framework, including C#, ADO.NET and ASP.NET
- Knowledge and experience in HTML and DHTML, Javascript, CSS
- Experience in graphic design and web development required.
- Ability to work both in a collaborative team environment and independently.
- Proficient verbal and written communication skills.

**Principals Only. All applicants applying for this position must be authorized to work in the United States.**

**Thatcher Technology** is a Direct Selling industry innovator offering a full suite of software, services and support with a commitment to ongoing development of solutions for the direct selling industry. Thatcher Technology was conceived in 1999 by Jay Christopher, co-founder of The Pampered Chef, one of the world's most successful direct sales companies. Christopher's vision was to bring innovative solutions to the direct selling industry, an industry that could soar with progressive technology. Thatcher's software solutions are a result of Christopher's passion for the industry's entrepreneurial spirit.

Thatcher Technology's premier product is the **Prowess™ Software Solutions Suite**, a powerful, scalable genealogy, compensation and incentive management software system developed for direct selling organizations. Prowess™ is specifically designed for companies who have widely disbursed and dynamic sales organizations. Based on a decade of experience with small and large direct sales companies, Thatcher Technology developed Prowess to help you turn high volume, complex sales activities into seamless, cost-effective processes.
